Junge®

JUNGE

AUTUMN/WINTER 2020

Danish quality since 1946

Junge designs outerwear with a feminine and contemporary touch. The fabrics are carefully chosen and of the highest quality.

The collection is designed with confident, independent and stylish women in mind.

The collection shows a variety of strong colours and various everyday-essentials, underlining the effortless sense of Scandinavian design.

To Junge, the focus on climate and environment is essential. It is imperative, that we all take responsibility to save our beautiful nature. We care about our future.

At Junge we have designed a range of recycled jackets, made of recycled wool and polyester. Recycling means to turn materials from waste into something new. We help to preserve our earth.

We are very proud of our new Autumn Winter 2020 collection and hope you will enjoy it too.
